WESTERN OAK

The Western Oak is the second of our 2 great builders series options. This Builder's Series balances great looks with a great priced set. The Western Oak is our best bark look in the Builders Series. These hand cast and hand painted logs will look like that were just picked up off the forest floor and thrown in your fireplace. The array of colors allows for greater detail in the bark pattern.

MOUNTAIN SLPIT OAK

The Mountain Split Oak is one of our 2 great options for builder and contractors in the market. This Builder's Series balances great looks with a great priced set. The Mountain Split Oak is our most versatile set of logs within our lineup. This set gives customers the abaility to showcase the barky back side of the log or the fleshy split middle of the lag as if the log s were cut right in half. Being able to display the logs in 2 ways gives our customers the ability to create their own custom look of logs.
