Selecting a Cabinet Mantel

W32D0 (Shown Above)

Gas or Electric: Vantage Hearth mantels have been designed with maximum versatility to fit Vantage Hearth electric, vent-free gas, and direct vent gas fireplaces.

Sizes: Mini (21"), Compact (26"), Large (32"), Extra Large (36") including Adjustable mantels & Peninsula mantels available. Fireplaces often correspond to the width of the viewing area. For instance, a 32" gas fireplace, in most cases, measures 32" across the opening.

Choice of Styles and Finishes: A variety of styles and finishes are available to select from. 21", 26", 32" & 36" mantels are available in regular wall models or corner models for installations where space is premium. The smaller sizes, 21" and 26", are designed with a single molding detail on the header, while the larger sizes, 32" and 36", portray a picture frame design. Georgian and Classic styles are also available in select sizes and finishes. Furniture grade adjustable mantels are also available in dark oak and dark walnut finishes.

Ready To Go: All cabinet mantels include a matching base. Decorative trim in either black or brass is available to cover the gap between certain gas fireplaces and the mantel.
